

Welcome to EagleCon Medical

As a Minority Owned Certified Service Disabled Veteran Owned Small Business, EagleCon Medical is committed to ensuring those who served receive excellent healthcare by way of access to best in class medical technologies. To do this, we educate Medical Device Suppliers on tailored government commercialization strategies and serve as the vehicle to secure contracts, gain account approvals and bill for services.

Transparent Partnership, It's Personal

What Do We Do?

With decades of experience in the medical device arena in the government sector, we have established the expertise and relationships you need. EagleCon will provide our Supplier partners an understanding of how the process works, a tailored strategy, access to our extensive network along with hospital billing and collections.

What Makes Us Different?

Experience working for and with other government intermediaries led to frustration with a lack of professionalism and service. We believe a win-win partnership with transparency from both sides will lead to our mutual success. For that reason we commit to:

Responsiveness and follow up

Accountability and transparency

Delivery of additional value

Building a longterm partnership
